

The actions by Sinclair to air "Stolen Honor" two weeks before the election is an outright assault on our rights. Sorry, but the very obvious, non-progressive move towards giant ownership of the media is hurting our country in a way that will greatly suffocate our democracy.....through censorship practices, through political agenda manipulation, through robotic mind manipulation of what "they" want "us" to think!!!! How can anyone not see this???? How can I say to my children we are a country based on democracy, when our very own free public airwaves are being manipulated by a political, agenda? This parallels communism.....
